Prof. Abu Hammad Baki Billah
Chairman
Gram Unnayan Karma (GUK)

Message from The Chairman

It's my great pleasure to announce that Gram Unnayan Karma (GUK) is going to publish its annual report of FY-2022-2023 illustrating organizational achievements and lessons so far learnt in implementing manifold & diversified development program/project activities to complement the existing poverty reduction for a break through with community participation. It is well known that human beings are at the centre of sustainable development. Every human being on the earth has the right to lead a healthy and productive life in peace & harmony with nature. The objective of GUK is to reach the poor and vulnerable communities who are unable to fulfill their basic needs and are always bypassed by many socio-economic scope & opportunities and major development interventions.

GUK has made sincere and dedicated efforts to achieve goals and targets during the last one year. The experience gained and lessons learnt during the reporting period would serve as guiding principles for future program development with participation of poor and vulnerable men and women in socio-economic growth and development activities.

GUK has succeeded within a short period of time to overcome the forces lying dormant in the rural areas especially among the women of poor and vulnerable groups through technical and financial support and

various development program/project interventions. The progress that has been made so far deserves appreciation for further program designing & implementation to achieve the Sustainable Development Goals (SDGs) by 2030.

I am confident that the development partners would continue to assist GUK to accomplish its goals and objectives in the days ahead.

I am sure that a greater engagement of GUK in the community demand driven activities would make it a unique organization.

I express my heartiest thanks and gratitude to the Founder Executive Director Dr. Khandaker Alamgir Hossain for his unparalleled endeavors and dynamic leadership without which the organization could not reach its present position.

Further, I would like to express my thanks to all development partners, government officials, local government bodies, national & international donor/partner organizations, GUK officials and staff along with project participants for their contribution, efforts and commitment to make the organization nationally & internationally well reputed.

Dr. Khandaker Alamgir Hossain
Founder & Executive Director
Gram Unnayan Karma (GUK)

Message from The Founder & Executive Director

Gram Unnayan Karma (GUK), has just completed its twenty-ninth years' of journey in Bangladesh and its multi-dimensional project activities, has covered reaching out poverty throughout the country. The organization is now focusing on helping the poor to enhance their skills & capacity by providing necessary inputs and services specially health, education, finance, resilience building and technical knowhow to make them enable to increase their income, wages and can protect themselves socio-economically in a sustainable way. It's my great pleasure to inform you that Gram Unnayan Karma (GUK) has completed another successful year 2022-2023 in its development endeavors. The organization has been implementing diverse activities including Microfinance, Agriculture, Livestock, Fisheries, Education, Food Security, Health & WASH Program etc. GUK has established Pro-poor Eye Hospital for prevention of needless blindness of the poor people with affordable cost, awareness building on eye care and arranging eye camps at different places for instant treatment and screening cataract patients for operation. GUK believes that family is the main centre of all socio economic development and accordingly has designed its activities focusing on the family's development through involving in groups, utilization of local resources, providing skill development training, necessary support and financial services.

Realizing the need to complement the existing poverty reduction by the government through SDGs by 2030,

GUK has been playing its potential role to accomplish the aforesaid goals through different development interventions with community participation targeting ultra poor and poor communities.

I recall with admiration the partners, Government of Bangladesh, PKSF, Bangladesh Bank-JICA, WFP, PKSF-EU, PKSF-IFAD, PKSF-World Bank, Swisscontact, CIMMYT Bangladesh, Rural Development Academy, Syngenta Foundation, Brac Bank PLC, Bank Asia PLC, Southeast Bank PLC, Bangladesh Commerce Bank PLC, Mutual Trust Bank PLC, Rupali Bank PLC, NRB Commercial Bank PLC, Pubali Bank PLC and other Commercial Banks, Local Government Institutions (LGIs), Bangladesh Agricultural University, Sylhet Agricultural University, Rajshahi University, DAE, DLS, DOE, BARI, BLRI and all other well-wishers for their continued supporting role, guidance, technical assistance and cooperation to achieve the objectives of the organization.

I acknowledge with gratitude for the generous contribution and sincere support of members of the General Committee, Executive Committee and Advisory Committee, learned consultants and all other officials/staffs in the smooth running and execution process of all development project/program activities towards alleviation of poverty and discrimination from the society.

I look forward to working together to accomplish our cherished objectives in the years ahead.

About GUK

Gram Unnayan Karma (GUK) was established in the year 1993 as a non-governmental development organization under the dynamic leadership of Dr. Khandaker Alamgir Hossain along with some dedicated social activists. The organization obtained registration from the Department of Social Services, NGO Affairs Bureau, Microcredit Regulatory Authority (MRA), Directorate of Health Services, Directorate of Family Planning and a partner of Bangladesh Bank and PKSF.

As a pro-poor & char friendly organization, GUK has been working in the field of primary health care, eye care service through GUK Eye Hospital, non-formal primary education, family planning, women empowerment, skill development through training, adolescent reproductive health care, climate resilient activities, disaster preparedness, emergency response, rescue & rehabilitation, sustainable agriculture development through diversified crop

production practices, sub-sector development, VGD under social safety net, school feeding, program, education stipend, livelihood development of elderly people, beggar rehabilitation, activities under Corporate Social Responsibility (CSR) and create employment opportunities to alleviate poverty by implementing agriculture, livestock & fisheries, activities, small trade & business and microenterprise through microfinance program.

So far GUK has covered 8 divisions, 58 districts and 320 Upazilas enrolling 6,50,380 households by setting up 530 Offices including Branches, Areas, Zones, Regions and Project Offices engaging 5,560 staffs. The organization is planning to expand the activities in uncovered remote areas for inclusion of poor people in the mainstream of development leveraging financial and technical support from government and donor agencies.

Objectives of GUK

The prime objective of GUK is to develop and enhance the existing socio-economic conditions of the targeted beneficiaries through utilization of their own resources and leveraging resources, skills and expertise from outside along with financial and technical assistance of donors and partner organizations.

Specific Objectives

- ✿ Provide integrated microfinance support to the ultra poor & poor community people for poverty alleviation and employment creation.
- ✿ Provide comprehensive health care services to the community people for total family health development.
- ✿ Provide low cost eye care services to the poor community people through GUK Eye Hospital.
- ✿ Provide solar power facilities to the households that are out of national electricity coverage.
- ✿ Provide low cost quality non-formal primary education to the drop-out & non-school going children in a cost sharing methodology through GUK Shishu Bikash Non-Formal Primary Education to create ownership of the parents and guardians towards the learning centers .
- ✿ Increase awareness on safe healthcare and small family norms.
- ✿ Provide agricultural loan under SMAP for Agriculture, Agro machineries and Livestock sectors.
- ✿ Develop cross breed heifers & bulls by establishing mini dairy/beef fattening farms at community level.
- ✿ Provide adolescent reproductive health care and safe motherhood related services.
- ✿ Enhance community resilience towards climate change risks reduction through adaptation & mitigation.
- ✿ Increase mass awareness for the prevention and control of HIV/AIDS and STDs.
- ✿ Mass awareness on socio-economic and human resource development.
- ✿ Mobilize local resources to generate savings for economic emancipation of the poor.
- ✿ Provide skill development training to undertake effective income generating activities.
- ✿ Provide financial support for micro and small entrepreneurship development.
- ✿ Gender development by removing gender disparity and empowering women.
- ✿ Improve health condition and promote the nutritional status of the Poor.
- ✿ Promote supply of affordable environment friendly clean energy/Improved Cook Stoves (ICS) to reduce carbon emission.
- ✿ Implement relief and rehabilitation works for the disaster victims.
- ✿ Extend legal aid support to protect women & children rights against violence and combat human trafficking.
- ✿ Build up social awareness against terrorism, money laundering and anti-social activities.
- ✿ Ensure safe water and sanitation in rural poor communities.
- ✿ Foster development of agriculture, livestock, fisheries and forestry.
- ✿ Ensure good governance at all levels.
- ✿ Conduct research studies for undertaking sustainable model activities.

Vision

The core values of GUK are as follows

GUK aspires that empowered communities overcoming poverty and emerging as a nodal agency for building a gender balanced sustainable socio- economic society.

Mission

The mission of GUK is to empower communities by ensuring access to finance, education , healthcare, food & nutrition, and various socio-economic development activities towards employment creation and resilience building.

Values

The core values of GUK are as follows

- Integrity.
- Participation.
- Equality.
- Inclusiveness.
- Accountability.
- Innovation.

Departments and **Functions**

Executive Secretariat

-  Maintain internal coordination with all programs, departments and units.
-  Prepare/review different policy documents and monitor proper execution of policies.
-  Supervise and monitor overall activities of all departments/units in a routine manner.
-  Assist the ED in taking decisions for smooth running of overall activities of the organization.
-  Maintain liaison with Government departments and different donor agencies.

Administration

-  Carry out and circulate decisions taken by the Executive Secretariat.
-  Ensure vehicle and other logistic support to all departments and units.
-  Purchase, store and distribute different goods & items necessary for the organization.
-  Organize different events like meetings, training, business fair, workshops, seminars etc.
-  Provide support for visitors of Govt. officials, donors and partner organizations.
-  Initiate different administrative actions as and when necessary.
-  Arrange office setup at different levels for running program/project activities of the organization.
-  Maintain overall security of the organization

Human Resource Management

- Assist in requirement of staff for the organization based on the annual plan of operation.
- Recruit qualified staff as per set criteria, rules and regulations.
- Carry out regular administrative activities like recruitment, posting, transfer, promotion, increment, demotion, redundancy, retrenchment and termination of staff as per need.
- Provide the list of staff to the administration unit for posting.
- GUK considers its staffs as an asset to the organization and accordingly conducts different assessment processes and arranges need based training courses to develop the capacity of the staffs.
- Prepare and develop different tools for the staff performance evaluation.
- Prepare and document staff benefit and compensation packages as per Service rules and manuals.
- Maintain grievance address mechanism based on GUK Service Rules.

Program Operations

The entire field operation of the organization is separated into two individual sections, Microfinance and Development Programs. The Microfinance Program is supervised by two Directors, one for the Microfinance Program under PKSF & Commercial Banks fund and the other for the Microfinance Program under SMAP of Bangladesh Bank-JICA fund. In addition, all the development programs/projects are supervised by a separate Director. The Microfinance and all the development Programs/projects activities are supported by various departments, units and sections which are managed by a strong chain of command in a top-down approach for implementation of decisions and use a bottom-up approach for close supervision. Individual department has its own internal organogram, policy and standard operating procedures. Each staff has his/her own well defined and assigned job responsibilities which is being disseminated by line supervisor. The staffs are responsible to maintain the code of conduct, ethics, norms and values of the organization. Zero tolerance policy is the base of the organization for control over fraud and corruption which is maintained strictly at all levels throughout the organization.

Finance and Accounts

GUK has a strong finance and accounts department with professional personnel. The Head of Finance and Accounts is supported by sub-ordinate staffs as per approved organogram. There is a regular system of internal and external audit of all accounts of the organization. Annual audit by authorized Chartered Accountants Firm is mandatory to ensure transparency and accountability of all financial transactions and record keeping. Financial management training on book keeping by using accrual basis financial accounting system is a continuous process of GUK. At present, all financial transactions are based on budgetary control system with necessary flexibility. Bangladesh Accounting Standards are its accounting basis for operating all financial transactions.

Internal Audit

Headed by a Director of Internal Audit & Review identifies different gaps and lapses in the operational and financial management system of the organization including keeping control over the AIS and MIS reporting system. Field and head office activities are monitored on a regular basis as per the annual audit plan. Emergency need based audit is conducted as and when required. Fraud and anti-corruption management system is an integral part of the audit department. The department recommends necessary mitigation steps whenever violation of policy and standard operation procedure is identified. The Director reports directly to the Executive Director of the organization for taking actions thereof.

Monitoring

The Monitoring Department ensures that the internal control systems of all operational activities are inline with the standard policies and guidelines of the organization. The department performs all activities in accordance with three major methodologies i) Program processes, Monitoring and Performance indicators ii) Beneficiary consultation /Assessment and iii) Impact Evaluation through check list and other monitoring tools.

Major Tasks

- * Tracking GUK inputs, processes, outputs and activities and monitor whether these are being delivered inline within the operational guidelines and policies.
- * Tracking project progresses effectively and efficiently by using in-house Management Information System (MIS).
- * Reviewing and recommending policies and guidelines based on organizational demand and practical field situation.
- * Monitoring and evaluating different programs and projects, ventures, sister concerns and social development enterprises of the organization.
- * Prepare different progress reports using result based monitoring system for various stakeholders.
- * Conduct baseline and end line surveys of different programs/projects.

Result Based Monitoring System

The expectation of the organization from result based monitoring is to help the program management system to find out how well the programs and projects are running and identify ways and means to improve the implementation status of programs and project activities along with involvement of high level community participation. As per design of monitoring tools the monitoring team randomly monitors program and project activities and submits monitoring reports with comments and recommendations to the concerned authorities for taking actions thereof.

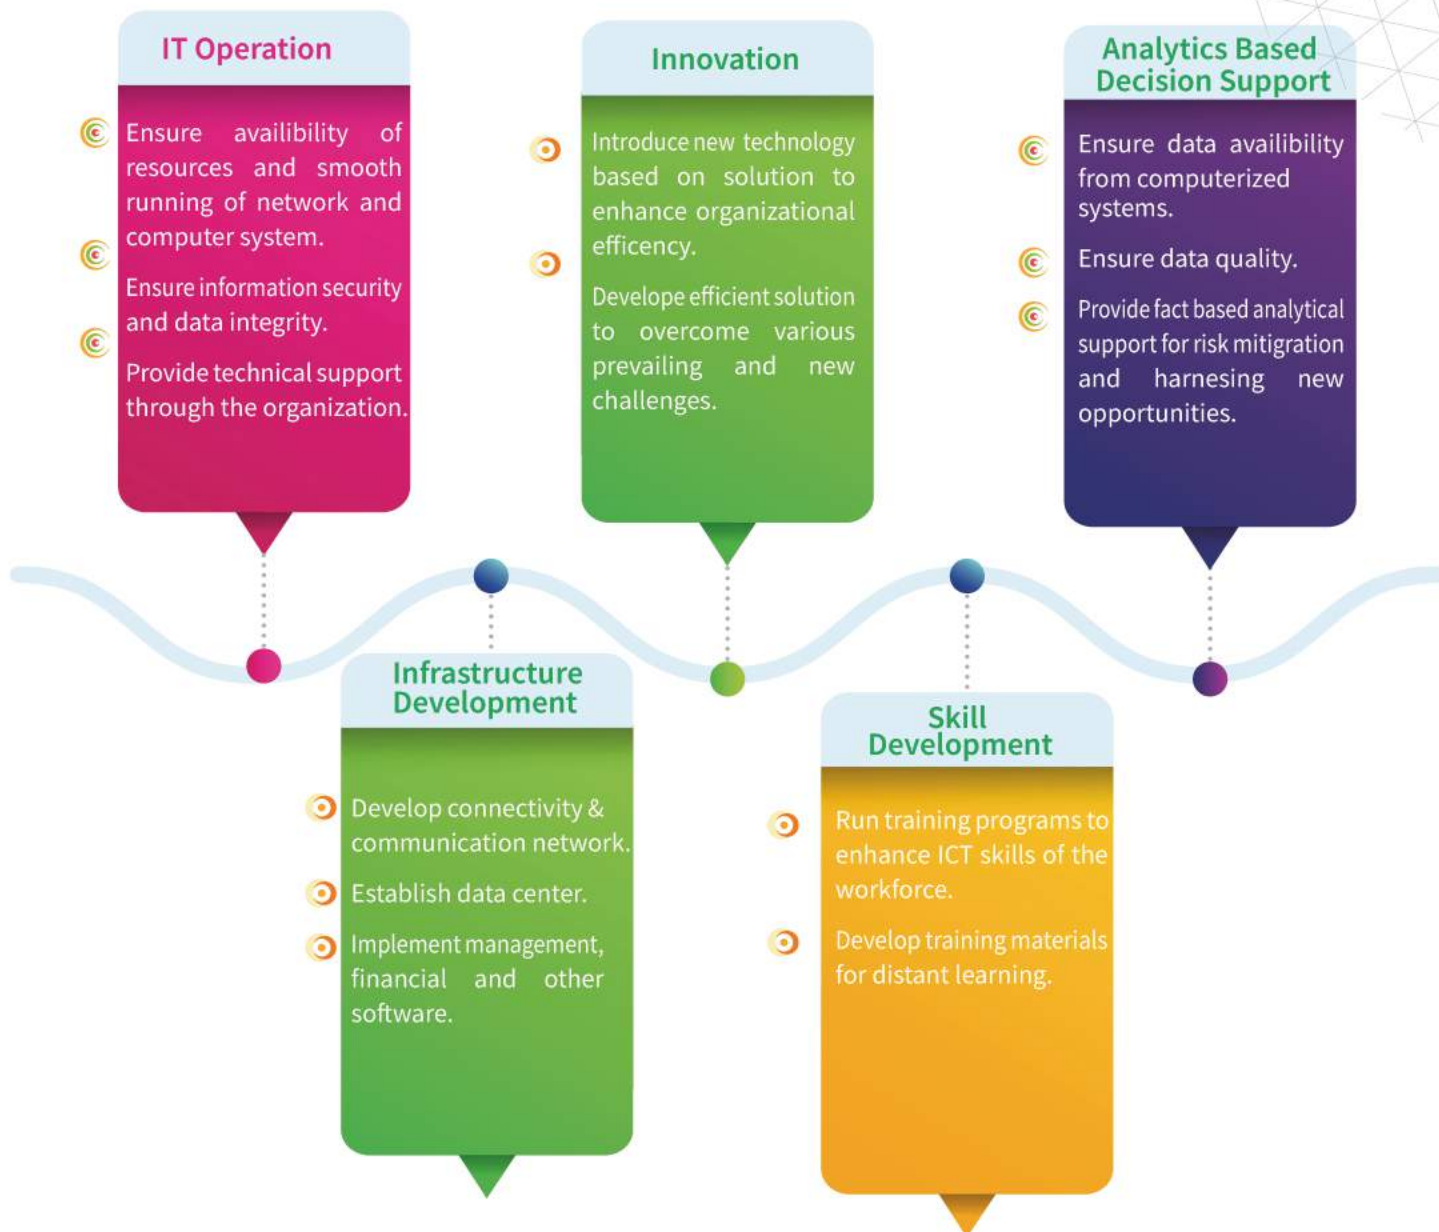

Diagram of Result Based Monitoring System

Information and Communication Technology

The objective of the Information and Communication Technology department is to build GUK as an industry 4 compliant organization. Its micro-finance operation is completely computerized and all of its branches are connected with a central core banking software. All financial transactions are performed on real time ensuring security of the information. GUK HQ is connected with all the branches through internet which ensures smooth and seamless communication throughout the organization. State of the art of software and analytical technology is used in all functions including organizational resource and manpower, formal & informal communication, decision support, reporting & documentation etc. The activities in this department includes development and operation of IT infrastructure, providing analytics-based decision support, organizational efficiency development by introducing new technology and running programs for employees' ICT skill enhancement. The ICT department is headed by the Director of ICT & Risk Management and supported by his skilled associates.

Major functions of ICT department

Legal Aid Services

GUK launched its Legal Aid Services in 2005 with one panel lawyer. The GUK Legal Aid Services Department has been working with 18,550 groups through different activities like formal and informal advocacy, trainings, awareness sessions, courtyard meetings to peacefully mitigate internal conflicts and management. The continued practice of resolving local conflicts locally has remarkably reduced the number of formal judicial cases resulting in saving time, money and harassment. The formal advocacy, trainings and awareness development includes: fundamental rights, human rights, constitutional laws, family law ordinance, dowry, polygamy, early marriage, violence against women and children, prevention and control of acid attacks, illegal divorce, domestic violence, prevention against child and women trafficking, mediation techniques, right based approach to development, women's rights, gender development and convention on child rights etc.

Good Governance, Gender Development and Human Rights

GUK has a separate unit to handle good governance, gender development & human rights issues to align in track of policy and documents formulated by the Government authority, national policy framework ensuring good governance, gender & development and addressing human rights issues at all levels. The head of the unit acts as the focal point overseeing all the related matters through monitoring tools & close supervision. The focal point is responsible for discharging all the tasks related to good governance, gender development & human rights issues in collaboration with other departments of the organization.

Access to Market in **Gender Focused Way**

GUK encourages for raising voices of women on equal access to work as well as wages and raising hands on human rights issues at their work place. GUK has a stablished gGalore for enhanching wemen focus work place for increasing their income & employment.

Annual Overview 2022-2023

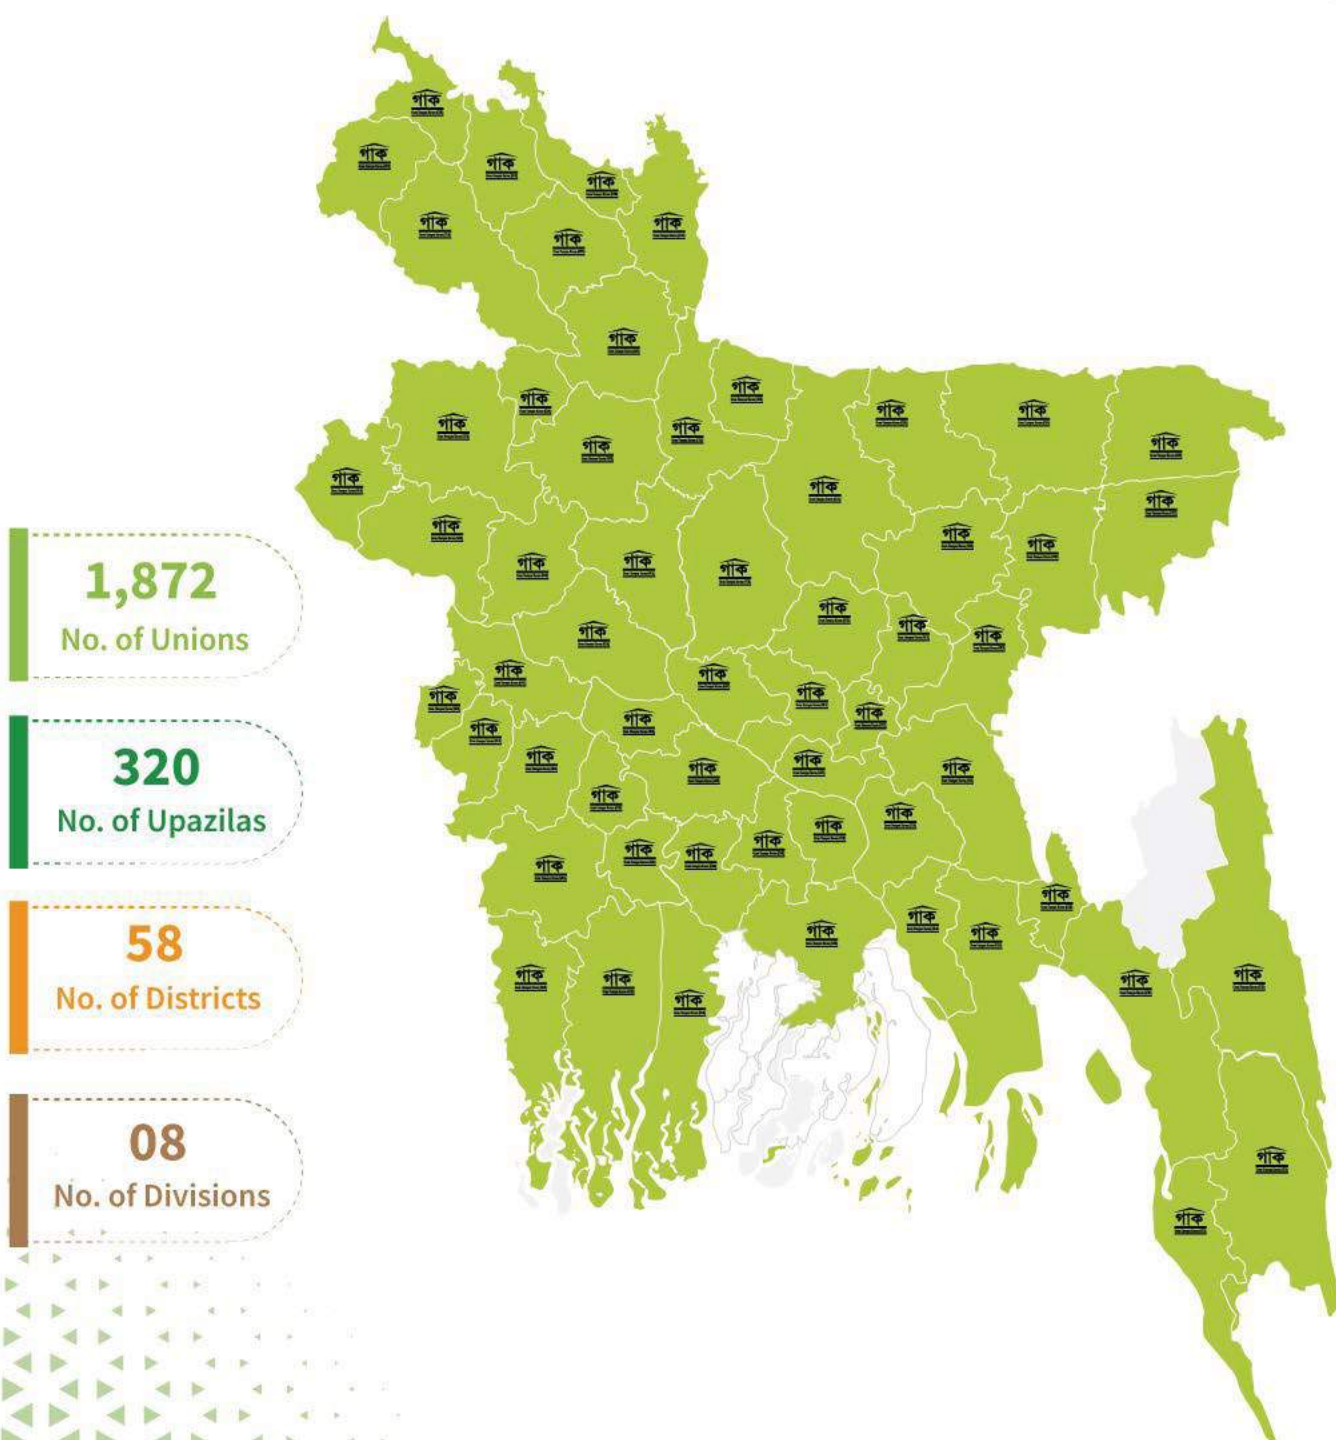

Gram Unnayan Karma (GUK) is very prominent, progressive and a leading national level non government organization in Bangladesh and now commendably recognized at home and abroad. The reason behind the recognition is its' meticulous and tireless efforts to oversee and assessment of all program activities time to time on a continuous basis. As its' very nomenclature suggests, GUK's dedicated activities relate primarily to alleviate poverty and create employment opportunities in the rural and urban areas of the country.

Diagram of Major Programs of GUK

Geographical Coverage

At national level, GUK has direct touch in 8 divisions and 58 districts covering 320 upazilas. Local competence is the key for sustainable programmes. That is why GUK always works through local people with local authorities. GUK is one of the leading organizations in Bangladesh and intervenes through 530 Offices.

GUK Microfinance Program

Focusing on Financial Inclusion

Background

The microfinance program aims to provide access to finance for the poor people by ensuring services for implementing IGAs that help people increasing income, alleviating poverty as well as improving the quality of life. Since its inception, GUK put utmost efforts to make significant contribution in creating favorable situation for enterprise development, capacity enhancement and social protection by efficient implementation of various financial products under different components of microfinance program. In compliance to the rules & regulations of Microcredit Regulatory Authority (MRA), GUK formulated its citizen charter in order to make the people understand clearly about the transparent financial policies applicable for financial services. Headed by two Directors of Microfinance program, GUK provides it's microfinance services by setting up 364 Branch Offices, 70 Area Offices, 16 Zonal Offices, 6 Regional Offices and deploying 3,593 efficient manpower.

Key Implementation Strategy

For effective implementation of micro-finance program, the organization has been maintaining the following key strategies and approaches;

- ✱ Participatory management under a group development approach.
- ✱ Special emphasis on sustainability of program participants.
- ✱ Implementing cluster-based development activities through mobilizing all sorts of local resources and provide need based information & technologies to the program participants and communities.
- ✱ Special emphasis on human resource development for ensuring better services to participants.
- ✱ Special focus and priority on ultra poor and growing entrepreneurs.
- ✱ Proper delivery of diverse loan products for ensuring self employment, income generation and wages.
- ✱ Ensuring information, access to market and transfer of technology to the program participants for their secured and safety investment.
- ✱ Establishing and maintaining linkages & partnership with Govt./NGOs/ private organization and national/international donor agencies.
- ✱ Implementation of microfinance program giving more emphasis on women's empowerment
- ✱ Regular monitoring, follow up and close supervision by management level staffs for analyzing the progress and benefit of the project participants.

Savings Program

GUK initiated savings activities to accumulate fund to undertake IGAs for income generation and to get rid of poverty. In fact savings (accumulation of tiny amount from individual participant) are being operated by GUK in order to mitigate Group member's crisis and to promote their livelihood through door-step services. To create and increase own fund and invest that fund in income generating activities by the participant is not possible at all without a habit of savings. For this reason, GUK adopted some steps to make the participants becoming savings oriented. The group participants have their passbooks and they receive interest on their savings as per the interest policy of GUK.

Objectives of Savings Program

- ✿ Minimize financial crisis & poverty alleviation of group members.
- ✿ Change program participant's attitude and make them savings minded.
- ✿ Ensure future protection of group participants.
- ✿ Reduce dependency on lending.
- ✿ Increase the financial strength of program participants.
- ✿ Ensure and increase participatory investment in group business.

Savings Mobilization

An adage goes like 'savings is strength' Savings mobilization is an important tool for capital accumulation and investment. Savings mobilization plays a vital role for the poor people who generally intend to borrow money for investment in any form of income generating activity. In fact savings help the borrowers to overcome borrowing money. GUK offers three types of savings products: general savings, voluntary savings & term savings.

General Savings

The product offers members flexible weekly deposit facility and withdrawal facility at the time of cancellation of membership. Benefits are provided as per rules of Microcredit Regulatory Authority (MRA).

Voluntary Savings

This product offers flexible voluntary weekly/monthly deposit facility to cover emergency expenditures and withdrawal facility at any-time during the membership period. Benefits are provided as per rules of Microcredit Regulatory Authority (MRA).

Terms Savings

A long term savings scheme where members have the opportunity to deposit TK 200 to TK 5,000 per month for a period of 5 & 10 years term at a much higher rate of interest aiming to strengthen the financial capacity of members that helps them a safe & secured future.

Member Welfare Service

It is always observed that at the death of a borrower or his/her nominee/guardian creates severe financial crisis on his/her heir or spouse. To overcome this burden GUK has been continuing member welfare service by taking initiative to exempt the remaining outstanding of the loan and refund the entire savings deposited by the borrower to his/her nominee. During the reporting period Tk 24,44,32,118 was exempted to 5,220 borrowers under member welfare service.

Description of Loan Products

Microfinance is an effective instrument for poverty reduction and GUK addresses this issue successfully by using various need based loan products for financial services according to the demand of the people for investment in different IGAs. The organization has been implementing different financial products as follows;

Buniad (Loan for Ultra Poor)

GUK has been implementing its Buniad (UPP) microfinance product from July 2004 with the financial and technical assistance of Palli Karma-Sahayak Foundation (PKSF) in 36 districts and 215 branches with a maximum loan ceiling of Tk. 30,000. The main objective of this product is to uplift the socio-economic conditions of the ultra poor, illiterate and unemployed community people living below the poverty level having no skill and access to resources. GUK provides small loan and IGA based trainings under the Buniad product. During the period under report a sum of Tk. 12,39,33,000 has been disbursed among 4,253 borrowers. The cumulative loan amount disbursed under Buniad is Tk 412,72,17,000 to 1,77,646 borrowers. Out of which Tk 206,36,09,000 has been disbursed in the agriculture sector among 88,823 borrowers, Tk 123,81,65,000 in the livestock sector among 53,294 borrowers and Tk 82,54,43,000 in other sectors among 35,529 borrowers.

Jagoron (Rural Micro-Credit)

Among all the loan products Jagoron (Rural Microcredit and Urban Microcredit) is the widest in spread. This product is being implemented with the financial and technical assistance of PKSF. The maximum loan ceiling under this product is Tk. 60,000. The main objective of providing the Jagoron (RMC & UMC) credit support to the members is to develop their capacity in running individual small IGAs, as well as enhance knowledge on different social issues like domestic violence, dowry, divorce, effects of early marriage, polygamy, health & sanitation etc. At present this component is being implemented in 21 districts under 127 upazillas through 136 branches. During the period under report Tk 603,68,99,000 has been disbursed 1,43,669 borrowers. The cumulative amount of loan disbursed up to the period under report is Tk. 432,071,20,000 among 16,25,756 borrowers. Out of which Tk. 163,807,06,000 has been disbursed in the agriculture sector among 6,17,787 borrowers, Tk. 129,321,36,000 in the livestock sector among 4,87,727 borrowers and Tk. 137,942,78,000 in other sectors among 5,20,242 borrowers.

ME (Micro-Enterprise: Agrosor)

GUK has been implementing its Agrosor/Micro-Enterprise loan product (ME) with the financial support from PKSF from July 2003. The maximum loan ceiling under this product is Tk 500,000. The main objective of micro enterprise loan product is to foster the growth of small scale enterprises with employment creation capability to ensure that the entrepreneurs can play a pivotal role in overall economic growth of the country. GUK emphasizes on the members to enroll for Rural Micro Credit Program for their enrollment in Agrosor/ME who successfully utilized Jagoron (RMC & UMC) loans for more than 2 years including new members considering all criteria be fulfilled for ME loan. The loan is repayable by weekly and or monthly repayment basis. During the period under report Tk 991,26,71,000 has been disbursed among 83,311 borrowers. The cumulative loan disbursed up to the period is Tk 396,490,20,000 among 3,78,104 borrowers. Out of which Tk 146,701,37,000 has been disbursed in the agriculture sector among 1,39,898 borrowers, Tk 129,321,36,000 in the livestock sector among 1,13,431 borrowers and Tk 130,841,77,000 in other sectors among 1,24,775 borrowers.

Sufolon Loan

GUK has been implementing its Sufolon (Seasonal) loan product with the financial and technical assistance of PKSF to support the poor and marginal farmers in producing different seasonal crops like chilli, maize, jute, potato, paddy etc. and vegetables along with livestock rearing such as beef fattening with one time installment after harvesting period. The maximum loan ceiling under this product is Tk 15,000. The repayment period ranges from 3-6 months. During the period under report Tk 110,900,000 has been disbursed among 10,838 borrowers. The cumulative loan disbursed is Tk 127,51,31,000 among 2,10,022 borrowers. Out of which Tk 44,10,9,000 has been disbursed in the agriculture sector among 3,401 borrowers and Tk 3,08,76,000 in the livestock sector among 2,380 borrowers.

Sahos Loan

Bangladesh is a disaster prone country. Various types of natural and man-made disasters occur every year causing heavy damage to crops, livestock, households and other properties and assets of the poor people living in disaster prone areas. The northern part of Bangladesh particularly the riverine area of the mighty river Jamuna, Teesta and Bangali passing through the vast area of Rangpur, Gaibandha, Bogura and Sirajganj & Nilphamari districts submerges nearby communities and island chars during the flood season.

The main objective of SHAHOS (DML) is to support the poor and the ultra-poor members with soft loan for disaster preparedness and post disaster rehabilitation for repair & renovation of households, installation of flood free level tube-wells, latrines etc. The maximum loan ceiling under this product is Tk. 5,000. The cumulative amount disbursed stands Tk. 3,32,09,000 among 15,210 borrowers.

Land Lease Loan

GUK provides Land lease loan support among the beneficiaries under Microfinance program for leasing land, inputs & machineries for crop cultivation in order to earn income as well as create working scope of the potential ultra-poor beneficiaries/borrowers for their socio economic development. The cumulative disbursement amount stands Tk. 127,51,31,000 among 1,47,015 borrowers.

Cluster Wise Enterprise Development Approach

The cluster wise enterprise development approach is a process of economic development of any kind of business in the specific cluster of an area. GUK has been promoting the approach for enhancing some promising Microenterprises through engaging local people of the respective cluster by providing ME loan along with skill development training and technical support to make the enterprise profitable and sustainable. The aims of the approach is to help entrepreneurs combining their strength and jointly take advantages of market opportunities, create employment opportunities and access to finance with a combined efforts. About Thirty Three thousand entrepreneurs are encouraged in different business and enterprises utilizing their skill, labor & local resources for successful implementation. Enterprises create jobs for the entrepreneur himself and for others too and some enterprises create jobs for himself. The notable enterprises are furniture making, light engineering, hand & power loom factory, welding & lathe machine, shoe making, bakery & confectionary, handy crafts, agri inputs business, agro machineries, easy bike and different technicians.

Light Engineering

Bogura is also famous for production of light engineering equipment like shallow machine, tube well, spare parts of shallow machine, power tiller, tractor, local transport engine, wheel, easy bike setting factory, welding & lathe machine factory etc. All the above items are very important for promotion of crop and vegetable production. Considering the importance of the sector GUK has been providing ME loan along with technical support for exploring the light engineering sector. During the reporting period 230 entrepreneurs have been supported by GUK. Each entrepreneur has engaged 5 to 20 workers to make different types of items/equipment as per the demand of the buyers.

Furniture Market Development

Bogura is also famous for production of wood furniture like chair, table, wooden rack, secretary table, half secretary chair, almira, wear drop, reading table, sofa, divan, khat, chouki, bench, file cabinet, shoe rack, kitchen cabinet, tv cabinet, wooden ceiling, dining table, dining chair, dining wagon etc. All the above items are very important for promotion of interior decoration production. Considering the importance of the sector GUK has been providing ME loan along with technical support for exploring the wood furniture sub sector. During the reporting period 905 entrepreneurs have been supported by GUK. Each entrepreneur has engaged 5 to 20 workers to make different types of items/as per the demand of the buyers.

Hand Loom & Power Loom Factory

GUK has been financing labor intensive local cottage industries for retrieving hand & power loom sub-sector and supports entrepreneurs for continuing business by using their knowledge and skills. GUK has identified hand and power loom cluster and organized them in groups and provides financial and technical support for running their inherited business in a sustainable way. About 3,850 entrepreneurs have been supported by GUK during the period under report. Each entrepreneur has engaged 6 to 10 workers to make different types good quality of cloths, blankets, towel/napkin, dresses as per the demand and choice of the buyers.

Hand-made Crafts Production & Marketing

GUK has been developing women focused business cluster for making diverse hand-made products like pottery, bamboo made crafts, cane made furniture, wood made crafts, nakshikantha and different types of show pieces. GUK also provides backstopping support to the producers for linking with big buyers. About 2,250 entrepreneurs have been supported by GUK during the period under report. Each entrepreneur has engaged 6 to 8 workers to make different types good quality of handy crafts as per the demand and choice of the buyers.

Target Group

- Ultra poor people/low income households; have some skills on making crafts
- Priority to consider women headed households; have the skills and commitment to run business
- Youth groups both men & women; having interest to take challenges on his/her inherited business
- Ethnic Groups/special clusters; having family based skill labor and have inherited capacity and
- The craft market actors like input suppliers/ buyers/exporters who are engaged in developing & marketing hand-made crafts.

Plastic Mat Production & Marketing

GUK has been providing financial support to the ME borrowers who are engaged in producing plastic mat for marketing and value chain development. This cluster is located under Naogaon, Baludanga & Raninagar branches under Naogaon district and Adamdighi branch under Bogura district. In total 102 ME borrowers under different branches are producing the plastic mat of various colors & designs which attract the buyers of different areas. Each entrepreneur has engaged 6 to 10 workers to make different types of plastic mat. A total of Tk 65,50,000 has so far been disbursed among the plastic making borrowers. There is a high demand of plastic mat for use in Mosques, non-formal primary schools, different clubs and also for household purposes.

Customers from other districts are also coming for purchasing plastic mat in lots at wholesale price. The plastic mat producers are getting fair price of their products and expanding their business day by day.

Development Projects/ Programs

Gram Unnayan Karma (GUK) has a good reputation in developing new and innovative project/program and has an expert dedicated team for managing diverse projects fulfilling the goals & objectives. The project management practices of the organization; new ideas initiating, planning, executing, controlling and closing the work of a team to achieve specific targets meet specific success criteria within the specified time. GUK has implemented a good number of development projects/programs during the FY 2022-2023 that played a significant role towards improving the livelihoods of the poor people in the project working areas. The development projects/programs are narrated below:

ENRICH-Enhancing Resources and Increasing Capacities of Poor Households towards Elimination of their Poverty.

The concept of ENRICH is initiated by Dr. Qazi Kholiquzzaman Ahmad, Chairman of PKSf which aims to ensure human dignity and freedom by gradually reducing poverty towards total elimination of poverty from the society in a sustainable manner. GUK started implementing various components under the ENRICH program from April 2012 in Gabtoli union under Gabtoli upazilla & extended its operation in Sariakandi union under Sariakandi upazilla from July 2014 with the financial and technical assistance of PKSf & GUK's own fund.

ENRICH A People-Centered Core Programme of GUK

Major Activities of ENRICH Program

- Primary Health care Program
- Non Formal Education Program
- Beggar Rehabilitation Program
- Special Savings Program
- ENRICH Loan Products
- Youth Development Program
- IGA Loan
- Asset Creation Loan
- Livelihoods Improvement Loan.

ENRICH Health Program

The Health Visitors have been regularly conducting household visits to 20-25 households in a routine way for collecting health related information, selling health cards and increasing awareness on health issues. After collecting information, the Health Visitors refer patients to static clinics for receiving treatment by the Health Officer and also refer patients to satellite clinics organized at different places in a routine manner where MBBS Doctors treat patients and provide prescriptions. In case of any serious illness the patients are referred to the nearest Government hospitals for higher treatment.

ENRICH Education Program

ENRICH education is a different type of education program which primarily seeks to address the problem of drop-out children from primary level education.

The main objective of ENRICH education program is to teach the primary school going children beyond their school hours in order to improve and sharpen their knowledge for better academic results. In total 2,400 children are enrolled in 80 assisted learning centers and each center is run by one qualified female teacher.

Beggar Rehabilitation Program

GUK has rehabilitated 20 beggars in Sariakandi & Gabtali Upazila under Bogura district. The rehabilitation program is being implemented by donating BDT 1,00,000 to each beggar through bank account payee cheque transfer for investing in feasible and manageable income generating activities. All 20 beggars were provided with Tk 100,000 each in the form of a check to undertake suitable IGAs. GUK high officials and field staffs have been closely supervising and ensuring efficient running of individual IGAs undertaken by the selected beggars and monitoring the progress of works resulting in their livelihood development.

20 beggars was selected as a beggar from Gabtali and Sariakandi who are rearing cow along with leasing land for crop cultivation and running a small business. During visit he says that he is earning handsome income from small business by selling sheep & crop and passing his days with family very happily.

Special Savings Program

Saving is one of the modern methods of capital formation for a household. An asset base is important for a household to lift from poverty. Special savings under ENRICH program for the ultra poor households, specially women headed families and disable is a really holistic attempt to foster the targeted beneficiaries economically solvent by providing equivalent amount as grant from PKSF. So far 86 members of Gabtali and Sariakandi union have successfully completed 2 years duration of savings up to June 2022 and a total special savings amount of Tk 7,64,327 has been allotted to them as grant by PKSF.

ENRICH Loan Products

GUK has been providing 3 types of financial services to ENRICH beneficiaries aiming to ensure better livelihood and sustainable income practices by Asset Creation Loan, Income Generating Activities Loan and Livelihood improvement Loan facilities for the targeted people.

Income Generating Activity Loan (IGA) Under ENRICH

Under the Income Generating Activity (IGA) Loan component of ENRICH Program, GUK has been providing IGA loans for undertaking income generating activities such as three wheelers CNG, auto rickshaw, agricultural inputs, household utencil business, mini shoe factory, power tiller, irrigation pump and other IGAs. During the period under report Tk. 12,46,66,000 has been disbursed among 1,878 borrowers. The cumulative disbursement amount stands Tk. 68,29,34,000 among 13,771 borrowers in the ENRICH Unions.

Asset Creation Loan Under Enrich Program

Under the Asset Creation Loan component of ENRICH Program, GUK has been providing Asset Creation Loan support to the ENRICH beneficiaries for taking land lease, purchasing goat, sheep or milking cow for asset creation. During the reporting period Tk. 27,62,000 has been disbursed among 107 borrowers. The cumulative disbursement stands at Tk. 6,94,69,000 among 3,450 borrowers.

Livelihood Improvement Loan Under ENRICH

Under the Livelihood Improvement Loan component of ENRICH Program, GUK has been providing Livelihood Improvement (LI) loan support to the beneficiaries for purchasing and installation of tube-wells, sanitary latrines, televisions, bi-cycles and various home appliances in order to improve the social status of their livelihoods. During the reporting period GUK disbursed Tk. 14,90,000 among 150 borrowers in the working unions. The cumulative disbursement stands Tk. 1,95,93,000 among 2,056 borrowers.

Livelihood Development Program of Elderly **People (Probin)**

Pursuant to the National Probin Policy-2013 of the govt. of Bangladesh for establishing the human dignity with good health and social safety life of the Elderly People, Palli Karma-Sahayak Foundation (PKSF) started implementing the program in all unions under ENRICH Program. Accordingly GUK started implementing the program from July 2018 in Gabtali union under Gabtali upazila and Sariakandi union under Sariakandi upazila of Bogura district.

A good number activities were defined in the budget for the wellbeing of the selected Elderly People of both the unions like; orientation of Probin leaders, training of microfinance staff on Probin program, Probin Committee Meeting at village level, Probin Committee Meeting at Ward level and Probin Committee Meeting at Union level. Besides, 100 Probins were selected by following the instruction of PKSF from each union who were provided with stipend worth Tk 500/- each per month for maintaining their Livelihoods. Apart from this many other encouraging activities those benefit financially and enhance the social dignity and prestige of the selected Probins have been performed during the period 2022-2023 creating a great sensation among 2,223 selected Elderly People of Gabtali union and 2,575 selected Elderly People of Sariakandi Union.

School Feeding Program (SFP)

Gram Unnayan Karma (GUK) started implementing the School Feeding Program (SFP) from January 2012 in Porsha Upazila of Naogaon district under an agreement with the Directorate of Primary Education (DPE), Government of the People's Republic of Bangladesh and the United Nations World Food Program (UNWFP). 6 unions and 132 villages have been covering under this program.

Highlights

- ☀ Total 88 Schools and Madrashas have been covered under School Feeding Program
- ☀ The program has served 13,276 students in the project areas
- ☀ 97% students brought safe water bottle in the class room
- ☀ 100% students using waste basket for disposing empty biscuit packets
- ☀ 95% students are now bringing Tiffin Boxes in their class rooms
- ☀ 50 vegetable gardens established in the school compounds
- ☀ 65 mothers gathering/ meetings have been conducted and
- ☀ 42 parent-teachers meetings have been conducted under this program.

GUK Eye Hospital

Eye diseases are emerging as a health problem common to all age groups of population. Number of visually impaired people in Bangladesh is increasing day by day. Cataract and glaucoma are the major causes responsible for 80% of blindness or loss of vision in our country. Of the estimated blind people in the country, 70-80% can have some or all of their eye-sight restored through early diagnosis and proper management & treatment. Treatment of eye diseases & eye care is of growing demand in Bangladesh. Considering the gravity of the situation Dr. Khandaker Alamgir Hossain, Founder & Executive Director of GUK took the initiative to set up an eye hospital in Bogura district of Bangladesh to provide treatment of eye related diseases and prevent blindness in the society. Accordingly, the GUK Eye Hospital was established in January 2015 at Banani, Bogura with treatment and operation facilities including having a low cost diagnostic lab along with a medicine and optic corner. Later on another two Eye Hospital have been established in Dinajpur & Uttara Dhaka.

The main objective of establishing the GUK Eye Hospital is to provide low cost but quality eye care services to the poor people with special emphasis on the members of GUK microfinance & other development programs and projects for prevention of blindness and eye diseases.

Highlights

- 3,50,000 patients received out-door-patient services
- 4,25,000 patients received free eye care treatment services through various eye camps (PSP)
- 3,850 patients received free cataract and other operation services
- 8,500 patients received free eye care services through GUK CSR
- Regularly 500-560 eye patients received out door services from GUK Eye Hospital.

GUK Eye Care Services

GUK Eye Hospital has been providing high quality services by using latest optical machineries and Eye specialized Doctors and Expert hands with affordable cost of services. GUK Eye Hospital provides the following services to the patients;

Services of GUK Eye Hospital

- Regular 500-560 patients receive services from GUK Eye Hospital
- Vision Test
- Preliminary Examination by the Doctor
- Refraction with PG Power
- Different Test (BP, IOP, SPT/DUCT. RBS, BTCT. Hemoglobin, Blood Grouping, KOH, Schirmer Test, ECG etc.)
- Final Examination by the Doctors
- Regular basis Counseling
- Optical service, medicine corner and Campaign at the rural level.

GUK Eye Camp Services

GUK Eye Hospital has been conducting Eye Camp throughout the country by three Eye Hospital. Main objective of Eye camp is to provide low cost Eye care Service to the poor people. So far, 4,25,000 patients received free eye care treatment services through various eye camps.

Primary Health Care & Family Planning Program

An adage goes like “Health is the root of all happiness” resulting overall socio-economic development of a country. Unfortunately, Bangladesh as a poor country has been experiencing a log of problems and obstacles in the way of accomplishing goals and objectives of a health society.

In spite of having a good infrastructure in health and family welfare sector, the government has not yet been able to deliver qualitative health care services to the general mass people due to a number of barriers and constraints. GUK as a pragmatic NGO believes in total family health development by providing necessary health and family planning services at the door step of the community people.

Considering the gravity of the situation, GUK started implementing gigantic primary health care & family planning services program activities in late 2009 by establishing service centers at community level. The structure of GUK primary health care & family planning services program includes qualified MBBS, doctors, paramedics, technician, health promoters and other support staffs to ensure efficient and quality services to the service recipients.

Objectives

- ❁ Reduce Maternal Mortality Rate (MMR)
- ❁ Reduce Infant Mortality Rate (IMR)
- ❁ Ensure Safe Motherhood through quality service delivery
- ❁ Ensure ante-natal and post-natal care
- ❁ Adolescent to establish small family norms
- ❁ Nutrition education promotion
- ❁ Treat poor patients by qualified doctors at service centers
- ❁ Refer high risk pregnant women and patients to the nearest government hospital.

Highlights

- ❁ 315 satellite and health camps organized
- ❁ 20,920 patients received treatment free of cost from the satellite and health camps
- ❁ 1,870 patients were referred to government hospital for higher treatment.

Promoting Peace & Justice

GUK launched its Legal Aid Services in 2005 with one panel lawyer. GUK Legal Aid Services has been empowering its nearly 17,625 groups through formal and informal advocacy, trainings, awareness raising sessions, courtyard meetings to peacefully mitigate internal conflicts. The continued practice of resolving local conflicts locally has remarkably reduced the number of formal judicial cases resulting in saving time, money and harassment. The formal advocacy, trainings and awareness increase includes: fundamental rights, human rights, constitutional laws, family law ordinance, dowry, polygamy, early marriage, violence against women and children, prevention and control of acid attacks, illegal divorce, domestic violence, prevention against child and women trafficking, mediation techniques, right based approach for development, women's rights, gender development and convention on child rights etc.

Currently, the legal aid services constitutes six members of professional panel lawyers and other support staffs to support its legal aid activities in the field whenever necessary. The legal aid activities of GUK are limited within the scope of mitigating conflicts and disputes among the beneficiaries through community level arbitration involving the members of local government bodies, local elites and assigned lawyers of the organization. As per policy of the

organization, the members of the arbitration team generally tire to settle disputes and conflicts between parties amicably on the basis of right judgment. In 2022-2023 GUK legal aid service has successfully resolved 650 cases through arbitration. Beside this, GUK legal aid services have referred another 45 cases to the respective judicial court failing to resolve those cases through arbitration.

GUK SOLAR POWER

Renewable Energy Program

GUK started implementing the Solar Home Systems (SHS) program since 2005. Having this track record GUK has become a Supply Partner Organization (SPO) of Infrastructure Development Company Ltd. (IDCOL) for implementation of the project activities.

The main objective of the project is to improve access of solar energy replacing kerosene lamp with solar lamp (Solar bati) for better health of rural people reducing respiratory infections through mitigating indoor air pollution in north west region.

In total 1120 solar home panels were installed in different areas out of which 215 were installed in remote and isolated char areas in the Jamuna river belt.

Main Activities of the program

- ☼ Selection of customers for Solar Home System
- ☼ Installation of SHS at household level
- ☼ Technical support to the SHS recipients
- ☼ Affordable accessories and Trouble shooting of SHS
- ☼ Follow up visit at SHS recipients households.

Highlights

- ☼ 1,120 solar panels installed
- ☼ 5,210 poor people benefited
- ☼ 12 districts covered
- ☼ 39 Upazilas covered
- ☼ 132 unions covered and
- ☼ 215 villages covered.

Social Development Activities CSR

In addition to the on-going development activities GUK has ethically approved a CSR policy to provide exceptional financial literacy support and corporation to the beneficiaries and their families as well as to the poor community people within GUK's coverage areas. Within the CSR policy, the organization provides stipend facility to the meritorious students of GUK's beneficiaries, non-formal and formal technical educational support, health care support through organizing health camps and eye care services through GUK Eye Hospital, static and satellite clinical services, arrangement of eye camps for screening eye patients, nutritional support, water and sanitation facilities, emergency disaster relief and rehabilitation support, rehabilitation of disable people, provide support to aged people and social and economic development cultural activities.

Highlights

- ✿ About 45,556 patients received financial assistance for medical treatment.
- ✿ 6,257 patients received financial assistance through health camp, eye camp and for eye operation.
- ✿ 315 students (from poor HHs) received stipend.
- ✿ 76 parents received assistance for their daughter's marriage arrangement.
- ✿ 4,775 poor old aged people received financial assistance.
- ✿ 76 institutions received donations for water and sanitation improvement.
- ✿ 171 organizations received financial assistance for social and cultural activities.
- ✿ About Tk. 7,76,43,907 spent for CSR activities for the FY 2022-2023 under GUK CSR Program.

Vulnerable Group Development (VGD) Program

The largest social safety net program of the Government of Bangladesh is “Vulnerable Group Development (VGD) that exclusively targets ultra poor households. About 7,50,000 direct ultra-poor participants all over the country receive monthly food ration for the household and a development support services (inclusive of life skills and income generating skills training, savings and access to credit) for a cycle in 482 Upazilas. In the FY 2022-2023, with the financial support of Ministry of Women & Children Affairs, Government of Bangladesh, GUK covered 3,529 beneficiaries under 120 groups under Shajahanpur Upazilla and Nandigram Upazilla Under Bogra district.

Objectives of VGD Program

- ✿ Sustainable positive change of socio-economic condition of vulnerable women in Bangladesh, so that they would be able to lift up themselves successfully from existing food insecurity, malnutrition and could transform themselves from destitution to at least in a recognized respected social level.
- ✿ VGD aims to reach ultra-poor rural women with complementary inputs support that could improve their nutritional status and would enhance their livelihoods and self-reliance.

Major Activities

The major activities of VGD program aimed to overcome the vulnerability of the poor by adopting sustainable livelihood practices. The following activities have been carried out in last year;

- ✿ Vulnerable Group Formation
- ✿ Credit and savings facilities
- ✿ Issue based awareness raising/training
- ✿ Skill development training on IGAs and
- ✿ Training on sustainable livelihood approach.

Services of VGD Program

GUK assisted union parishad in proper distribution of 30 Kg rice per month among 3,529 VGD members family in Shajahanpur Upazilla and Nandigram Upazilla Under Bogra district. GUK has disbursed loan amounting Tk. 21,25,000 to the VGD members for undertaking small IGAs. GUK also provided IGAs & life skill development training to the VGD members for enhancing their capacity as well as increase of household income.

Non-Formal Primary Education Program

Highlights

- ☀ 24 districts covered
- ☀ 110 upazillas, 315 unions and 1,050 villages covered.
- ☀ 1,471 schools established
- ☀ All schools established in remote and hard to reach areas.
- ☀ 45,650 students enrolled
- ☀ 65% female and 35% male students.
- ☀ 98.3% attendance rate.
- ☀ 1,471 experienced female teachers employed.
- ☀ Free education materials were provided.

GUK Shishu Bikash

Education is the backbone of a nation & a nation cannot prosper without proper educational facilities. Considering the importance of education in the way of overall development of a nation, Gram Unnayan Karma (GUK) has been implementing its non-formal primary education program since its inception with the financial & technical assistance of Bureau of Non-Formal Education (BNFE) Government of the People's Republic of Bangladesh. Whereas the rate of literacy is yet to be increased with quality education facilities in the country, a major population of the rural society demands quality education for their children at a cost effective manner.

The existing number of Govt. Primary Schools is not enough to cover the growing number of school going children in rural & hard to reach remote areas. There is a high demand for quality education of school going children in remote areas without any compromise. On the basis of a feasibility study & the importance of increasing the rate of literacy, GUK took the initiative to run GUK Shishu Bikash Education Program with a cost sharing basis for the drop-out & non school going children of the beneficiaries of GUK and other poor community households. GUK started the Shishu Bikash Education Program in Bogura district as a pilot program in 2016 which executed in full operation from 2017. Funding for the program comes solely from GUK's own source with some contribution from the community level.

Sustainable Enterprise Project (SEP)

Gram Unnayan Karma (GUK) has been implementing Sustainable Enterprise Project (SEP) in Bogura Sadar, Sherpur and Shajahan Upazila in Light Engineering Sector. The project aims to support microenterprises through environment friendly investments (energy, water and resource efficiency) in the agribusiness and manufacturing sector to promote sustainable technologies and practices among microenterprises in environmentally vulnerable areas, induce changes in the micro-lending ecosystem, and support the adoption of basic operational safety norms in project-supported enterprises. The SEP in the light engineering sector likely emphasizes the adoption of sustainable practices within the industry. This could involve the use of environment friendly materials, energy-efficient manufacturing processes, waste reduction and recycling measures. SEP may also provide support in terms of market access and entrepreneurship development. This could include assistance with product marketing, access to finance for business expansion, networking opportunities to connect local entrepreneurs with potential buyers and collaborators

Objective

The objective of SEP is to increase the adoption of environmentally sustainable practices by targeted microenterprises. Specific objectives of the project are.

- Scale up and upgrade the quality and ensure competitive price of agro-machineries and equipment.
- Assist to adapt environmentally sustainable practices to produce agro-machineries and equipment.
- Create environment friendly business of agro-machineries and equipment.
- Promote agro-machineries and equipment in the premier market.

Sub Project Activities

- Establishment of common facility center (service) cum outlet (parts) for servicing agro-equipment, quality testing.
- Establishment of water, sanitation and hygiene facilities.
- Model workshop development and demonstration.
- E-Marketing for creating branding image in National market.
- MEs training on Environment Certification, Product Certification, Business Certification, Accounts & business management.
- Foundry slag recycling and waste management.

Highlights

- Conducted 10 batches training on Environmental Certification for MEs.
- 15 MEs received Environment Certificates by the project intervention.
- Introduced e-marketing system for selling their products.
- Establishment of 6 facilities (water, sanitation and hygiene) at different clusters.
- Establishment of 20 Model Workshops development for MEs Clusters.
- Conducted 10 batches training on the production, sale and use of Agro Machineries.
- Arranged 2 business fair at regional and national level for product branding & sales promotion.
- Establishment of 5 Common Service Centers at different clusters.

Livestock Development Program through Contract Farming Model

GUK started implementing the Livestock Development Program through Contract Farming with the financial and technical assistance of PKSF under the LIFT program in 2008 by setting up a dairy breeding farm for breed development to produce quality heifers for distribution to the contract farmers. The program aims to achieve economic empowerment of the poor community people through improved cattle rearing and establishing mini dairy farms at community level and to improve the nutritional status at household level through increasing milk consumption.

GUK Mini dairy farming system has got popularity at community level and knowledge & skills of contract farmers have been increased. Farmers are receiving loan on different IGAs related to livestock enterprises and GUK has been providing technical support and training to make the enterprises profitable. A total number of 7,24,679 borrowers received loan Tk. 2,670,75,36,000 on different livestock related IGAs from livestock development program

Main Objectives

- ✿ Create employment opportunities.
- ✿ To promote the nutritional status at households level.
- ✿ Contribute to national economic growth and restoration of soil fertility.
- ✿ Promote quality artificial insemination for production of improved heifers & bulls.
- ✿ Promote improved cattle rearing practice at community to enhance production and productivity.

Highlights

- Total 6,253 contract farmers have been benefited from the GUK dairy farm.
- Imparted training to 8,220 farmers on goat rearing, cow rearing & beef fattening to increase the production and productivity.
- Imparted service to 9,250 farmers received livestock services through 400 LSPs.

Internship

GUK Dairy Farm is being utilized as a “Resource Center” including internship facility for the students of Veterinary Science & Animal Husbandry faculty of Bangladesh Agricultural University, Mymensingh, Sylhet Agricultural University, Sylhet, University of Rajshahi and students from National University. Every year around 120-150 students are completing their internship course for acquiring practical knowledge and experience at community level mini dairy farm, women empowerment and livelihoods improvement through different IGA implementation.

GUK Agriculture Development Program

Under Agriculture Development Program, GUK has been providing input support, high value quality seeds, agro-machineries, agro-product processing & preservation along with market linkage with different actors to sell their agricultural products through its agriculture experts. From the inception, GUK has been implementing various agriculture development program activities in order to create working scope and increase production of different high value crops in the operating areas. The farmers are receiving loan on different agriculture related IGAs. A total number of 10,05,414 borrowers received agricultural loan on different crop & vegetable cultivation, agriculture inputs like seed, fertilizer, pesticide business and Agro machineries etc. amounting to Tk. 3,444,83,25,000 from GUK Agriculture Development Program.

Highlights

- Imparted training to 7,256 farmers on production of improved crops and vegetables to increase the production and productivity.
- Promoting sustainable agricultural practices for the economic emancipation as well as to adapt suitable and profitable cropping pattern in the project areas.
- A total number of 10,05,414 borrowers have received agricultural loan amounting Tk. 3,444,83,25,000 for cultivating season based diversified crops and vegetables using modern technologies, agriculture inputs business and agro machineries.

GUK Fisheries Development Program

GUK has been implementing fisheries development program with the cooperation and technical assistance from the Department of Fisheries (DoF). GUK runs this Program through facilitating skill development training on fish culture among the borrowers and contract farmers. GUK also provides training on nursery pond management, fingerlings production, mix fish cultivation, seasonal & perennial pond management, fish production and marketing etc.

GUK is providing credit support to the interested fish farmers and beneficiaries under the micro finance program of GUK. GUK deployed skilled manpower like fisheries extension workers and fisheries graduates who are responsible for providing rigorous services to the fish farmers like water treatment, pond management, fingerling stocking and other technical support for enhancing modern fish culture methods and techniques among the fish culture loan recipients. For effective implementation of the fisheries development activities, GUK has disbursed at Tk. 95,26,75,000 among 12,425 borrowers during the reporting period.

Highlights

- ✿ Imparted training to 425 farmers on fish culture to increase the production and productivity.
- ✿ A total number of 12,425 borrowers have received loan amounting Tk. 95,26,75,000 for fish production and fish business.

Value Added Development Support Using Integrated Development Approach

Integrated Development Approach

GUK utilizes a unique custom designed integrated development approach to provide economic and social development support to the participants. In the integrated development approach, GUK, provides health care, education, capacity development, agriculture, livestock, fisheries, technical assistance and training, microfinance, member welfare service, remittance, pre-disaster preparedness, during disaster relief and rehabilitation, post-disaster management, hygiene, sanitation, access to safe drinking water etc services to the participants. The integrated development approach uses 1 single development officer to provide all the necessary development support to the participants. The development officer is assisted by a technical expert for each of the development sectors along with being supervised by an area manager followed by a zonal manager. The quality of services is ensured by senior staff from the head office from each of the sectors. This approach is not only a cost effective model but also completes the majority development services required by a participant for their development life cycle.

Remittance Services

GUK started the low-cost foreign remittance service in 2010 as an extension financial service program to the remote and rural people who usually receives foreign remittance from around 180 different countries. The purpose of the service is to provide quick, safe, transparent and easy remittance services from the nearby branch offices of GUK. The remittance service is running with the financial & technical assistance from Bank Asia Ltd. in collaboration with Western Union, X-press Money Transfer, International Money Express (IME) etc.

Microfinance Program Through Revolving **Commercial Bank (RCB) Fund**

To meet the high demand for microfinance financial services for the poor GUK had to provide microfinance services to it's beneficiaries with funds from revolving commercial bank. During the period under report Tk. 1,086,25,47,000 has been disbursed among 1,32,059 borrowers and the cumulative disbursement is Tk. 3,122,98,02,000 among 5,10,485 borrowers in the agriculture, agro machineries and livestock sector under RCB.

Highlights

- Total 1,32,059 borrowers have been covered under RCB Program
- Tk 1,086,25,47,000 has disbursed in the reporting year
- The RCB Program has covered in the agriculture, agro machineries and livestock sector and
- The cumulative loan disbursement is Tk 3,122,98,02,000 to 5,10,485 borrowers.

Small And Marginal Sized Farmers Agricultural Productivity **And Diversification Financing Project (SMAP)**

The main objective of the project is to increase the agricultural productivity and diversification of crops of the small and marginal farmers of Bangladesh by extending agricultural loans along with providing technical support services (TSS) to the farmers. This project is funded & technically supported by Bangladesh Bank-JICA. There are two categories of loan, mid-term and short-term loans and the ceiling of the loan amount is Tk 91,000. During the period under report Tk. 51,70,00,000 has been disbursed among 5,677 borrowers and the cumulative disbursement is Tk. 3,700,800,000 among 55,807 borrowers in the agriculture, agro machineries and livestock sector SMAP. Out of which Tk. 187,43,36,000 was disbursed in the agriculture sector among 31,654 borrowers. Tk. 1,77,25,32,000 was disbursed among 23,547 borrowers in livestock and Tk. 5,39,32,000 was disbursed among 606 borrowers in the agro machinery sector.

Highlights

- ✿ 20 Districts covered
- ✿ 78 upazillas, 313 unions and 437 villages served
- ✿ 81 branches opened
- ✿ 4,091 groups formed
- ✿ 87,917 farmers enrolled
- ✿ 6,356 borrowers received TSS
- ✿ 232 SMAP staffs received TOT
- ✿ 55,807 farmers have been provided with loan
- ✿ Tk. 370,08,00,000 disbursed under SMAP.

Matching Grant For the Island Char Dwellers

Access to appropriate financial services has always been a constraint in the isolated char areas of Bangladesh due to unavailability of financial institutions like banks or micro-finance institutions. Although there is scope to produce quality agricultural products but due to lack of adequate technical assistance and unavailability of quality inputs, farmers are unable to maximize the production. In addition, lack of the communication and poor infrastructure, absence of market linkage and supply chain management system farmers are not getting fair price of their products in the areas. As a result the farmers are deprived from the mainstreaming development. Considering the aspect, GUK has taken a project initiative to address the constraints with the assistance of M4C under Swiss Contact and Char Development Research Center (CDRC) of RDA.

The main objective of the project is to create access to appropriate financial services for the char farmers living in island chars of Sariakandi upazilla under Bogura district. The specific objective of this project is to provide matching fund to compensate GUK against the loss of GUK's introducing Seasonal Loan Products (SLP) to the char farmers and test its operational feasibility through promotion and distribution of regular microfinance as well as seasonal crop loan products in the hard to reach char areas. GUK disbursed Tk. 5,85,25,000 among 1,675 char farmers as seasonal loan for production of different crops like chilli, jute, maize, ground nut and rice and to rear beef cattle

GUK created a market chain development system between the char farmers and market and strengthen the linkage with respective government departments. GUK also provided various technical support, assistance and advices in regards production and productivity improvement, diversification of crops and increase financial facilities resulting in farmer's encouragement to produce more diversified crops and receiving fair market price for their commodities.

Highlights

- ✿ Tk. 5,85,25,000 disbursed as Loan
- ✿ 1,850 farmers enrolled
- ✿ 1,675 beneficiaries served
- ✿ 67 groups formed
- ✿ 268 group meetings held on awareness building and IGA implementation.

Koishor Karmashuchi

GUK has been implementing Koishor Karmashuchi with the financial assistance of PKSF, VSO and GUK own fund. The purpose of the project is to provide adolescent health, nutrition, awareness on personal health & hygiene and Social awareness on dowry-demands, early marriage, disaster preparedness & response etc. The project is being implemented in 5 Upazillas under Bogura district. Under the Koishor Karmashuchi adolescent boys' & girls' clubs and youth forum have been organized in different program at village level. These clubs are equipped with basic information related to their rights and responsibilities they can address the issues and overcome the situation effectively.

Major Activities

- ✿ Formation of boys & girls clubs and nutrition corner at govt. primary school
- ✿ Discussion meeting on Health, Nutrition and re-productive health care facilities
- ✿ Awareness raising campaign on different day observation
- ✿ Find out malnutrition children under 5 and provide advise their parents for EPI and ensure proper nutrition
- ✿ Visit pragnent & lactating mother for providing suggestion on ante natal & post natal care and breast feeding
- ✿ Encourage households to install sanitary latrines
- ✿ Provide technical support to the Buniad borrowers for implementation their IGA profitable.

Highlights

- ✿ 4,500 beneficiaries served in the project areas
- ✿ 1 upazillas and 12 unions covered
- ✿ 24 sessions on nutrition and reproductive health were provided to the adolescent boys & girls
- ✿ 215 sessions were held on nutrition and health awareness for the adolescent boys & girls
- ✿ 30 sessions on nutrition and health were held at govt. primary schools
- ✿ 216 adolescent clubs were formed and 5 nutritioncorners were established at government primary schools.

“Market system development of safe poultry and poultry products” value chain development sub-project under RMTP

The project titled ‘Market System development of safe poultry and poultry products’ financed by Palli Karma-Sahayak Foundation (PKSF) and the International Fund for Agricultural Development (IFAD), Embassy of Denmark (DANIDA) is being implemented in 4 Upazilas (Bogura Sadar, Shajahanpur, Kahaloo & Nandigram) of Bogura district by Gram Unnayan Karma (GUK). This project is working with 19,500 beneficiaries & 500 service providers. RMTP Poultry Project is working on value addition at various levels, expansion of financial services for enterprise development, and strengthening of the institutional framework for the development of safe eggs, meat and meat products of the value chain. Efforts have been made to scale up and expansion of enterprises through efficient production methods and strong market linkages of marginal and small farmers.

Hands on training on “Vaccination & deworming campaign” for LSP by ULO (Upazilla Livestock Officer) is provided. MoU was signed with Nourish, Aftab, Plannet Agro, Renata, Future Tech Pro for supporting the beneficiaries in running their interventions in profitable way. Market linkage was established among service providers like feed & day old chick seller, hatchery owner, egg shop owner, egg & meat producer, e-agent, Hygienic & Halal poultry chain shop, super shop, Fast food restaurant and other GO & NGO stakeholder for value chain development. G.GAP trainer has been trained for facilitate G.GAP practices in poultry sector. Nutrition awareness campaign & fair was held in project areas. Also nutrition related video modules has been shown in different media & platforms for project beneficiaries, poultry actors & relevant stakeholders. Vermi & Trico compost fertilizer plants has been established by using poultry wastes to make safe environment & green growth. Employment is being created through poultry rearing on family and commercial farms in the working area. At the same time women are becoming financial independent. Several training sessions, meetings & workshops were held among DLS official and relevant stakeholders during the period under report.

Goal:

To increase the income, food security, and nutrition of farmers and service providers across poultry value chains.

Development Objective:

The sustainable growth of poultry value chains with comparative advantage, market demand, growth potential, and backward & forward linkages to small farmers and micro-entrepreneurs.

Outcome :

The outcomes are- a) The project participants will adopt improved production methods and establish sustainable market linkages, and b) The enterprises will have access to sustainable financial services

Highlights

- Developed G.GAP master trainer
- Established 3 duck hatchery to produce day old ducklings
- Established poultry diagnostic lab for diagnosis of poultry diseases.
- Established 42 vaccine hubs/clinics for cold chain maintaining of Vaccine
- Distributed 20,000 hand books on poultry rearing to the duck, chicken & pigeon farmers
- Developed 44 livestock service providers
- Facilitated 862 vaccine & deworming campaigns
- Developed 7 model chicken coup
- Established 15 model egg sales center
- Established egg washing hub machine to clean the germs of eggs
- Established 4 hygienic & halal poultry chain shop
- Established 13 Vermi & Trico compost fertilizer plants

RMTP (Dairy & Meat)

The sub-project "Market System development of safe meat and dairy products" implemented by Gram Unnayan Karma (GUK) with the financial and technical support of Palli Karma Sahayok Foundation (PKSF) was launched through a bi-fortnight grant agreement at the office of Palli Karma Sahayok Foundation, Dhaka. The sub-project will be able to scale up resilient small scale enterprises through rural production systems and strong market linkages. It will contribute to creating an effective business environment that will strengthen the expansion of small and medium industries, linkage of value chain actors with agri-business.

Key Objectives:

- **Income Enhancement and Nutritional Impact:** Aim to achieve a 50% income increase for 70% of project entrepreneurs, with 30% adding nutritious food to their diet.
- **Sustainable Value Chain Development:** Work towards an 80% increase in the production of safe livestock-related enterprises, resulting in a 30% boost in product sales and a 20% increase in business profits.
- **Safe Product Manufacturing:** Ensure that 90% of project entrepreneurs conduct safe product manufacturing operations using quality materials, advanced technology, or best practices.
- **Market Access:** Enable 10% of the manufacturing team to engage in institutional/contractual business with major markets or buyers, fostering market linkages.
- **Eco-friendly Practices:** Encourage 40% of project members to adopt eco-friendly technologies, aligning the project with sustainable and environmentally conscious practices.

Chapter-1

GUK started to implement the project “Market System Development of Safe Meat & Dairy Products under Rural Microenterprise Transformation Project (RMTP) with the financial and technical assistance of IFAD and PKSF from December 2021 covering 5 Upazilas of Bogura district.

The Goal of the Sub Project:

Is to sustainably increase the income, food security and nutrition of marginal & small farmers and micro-entrepreneurs of the meat & dairy value chain.

The sub-project “Market System Development of Safe Meat and Dairy Products”

The sub-project will address:

- ✿ Scaling up resilient of small-scale enterprises through rural production systems and strong market linkages with private sectors.
- ✿ Contribute for creating an effective business environment that will strengthen the expansion of small & medium industries and making linkage of value chain actors with agri-business.

Highlight

- ✿ Total 25,000 beneficiaries received capacity development training on cattle rearing, Good Agriculture Practice (GAP) and Farm mechanization .
- ✿ Total 22 vaccine hub established by covering 15 unions under the project areas .
- ✿ A veterinary diagnostic lab has established for diseases diagnosis of livestock and poultry.
- ✿ 25 fodder dealer point has established in the project areas for supplying green grass to the project beneficiaries.
- ✿ For farm mechanization 80 chopper machines, 5 milking machine, 15 compost plant, 1 silage baler machine, 5 bio-gas plant has established in the project areas.
- ✿ Diversified milk product produced- 5 Mini chilling plant, 50 milk can, 6 tanker van, 1 automatic sweet maker machine, 5 entrepreneurs received ISO Certificates by the project support.
- ✿ 1 Meat processing plant, 1 Garol cluster, 2 livestock collection points has established.

Targeted Population:

The project is targeting 25,000 (Farmers-24,000, Local Service Providers-1,000) people who are engaging in different interventions.

Access to improved & livestock services to ensure vaccination, AI and adoption of Global GAP standard in the livestock subsector for improving animal health and productivity.

Increase production and reproductive performances of livestock through the development of a supply network of high-yielding fodder, silage and ready feed at the doorstep of farmers

Access to the mechanization of livestock farm and processing unit for reducing of labor, time as well as cost-effective production of meat, milk & dairy products.

Major Intervention:

Develop industry-grade dairy products through the modernization of processing unit for entering the diversified dairy food products in the premium market.

Promote contract farming to adopt GGAP standards for producing safe meat and selling live animals at a fair price throughout the year.

Transformation of livestock-related enterprises into profitable businesses by introducing advanced financial & ICT based services.

Summer Onion Cultivation for increasing income & Employment of Farmers under PACE Project

Background

Bangladesh is registering a slow spike in the cultivation of onions during summer with the government patronizing the expansion to reduce high import dependence during the lean season from October to November. Considering the context, GUK has been implementing a project on Promoting Summer Onion Cultivation for increasing income & Employment of Farmers under PACE Project.

Objective of the Project:

Main objectives of the project is to promote summer onion cultivation for increasing income and employment of the farmers.

Area Coverage : Gabtoli Upazila under Bogura and Sathiya Upzila under Pabna District.

Target Farmers : 500 (Demonstration Farmer-100, and General Farmer-400).

Project Duration : 6 month (July 2023 to December 2023)

Proposed Project Budget: 4,400,000/- (Forty-four lac Taka)

SL No	Name of Activities	Target	Achievement
1	Inception Workshop	1	1
2	Project baseline survey report by consultant	1	1
3	Summer Onion Farmers Group Formation through Meeting	20	20
4	Farmers Training Demonstration Plot Summer Onion Production Seed Sowing, Production Harvesting, Preservation	100	100
5	Farmers Training on Summer Onion Cultivation, Seed Sowing, Production Harvesting, Preservation	400	400
6	Farmers Exchange Visit Training on Summer Onion Cultivation	2	2
7	Farmers Field Day Training on Summer Onion Cultivation, Harvesting & Processing	2	2
8	Demonstration Plot on Summer Onion Cultivation	100	100
9	Demonstration Plot on Summer Onion Seed Production	10	10
10	Farmer Training Demonstration Plot on Summer Onion Seed Production	1	1

Recovery and Advancement of Informal Sector Employment (RAISE)

Micro, Small & Medium Enterprises sector are contributing to develop and advancing of our country and these sectors are also contributing 83% employment in our country. Micro and small enterprise sector are creating 94% job employment in our country but during the COVID-19 epidemic these sector are mostly affected.

In such a situation Most of our young people are unskilled and have a less skill in the employment that's why most of our young people are deprived from the decent work so on that issue there is need to take initiative project activities so that they can overcome the Technology Trap and also the Low wages and can contribute in our GDP.

Palli Karma-Sahayak Foundation (PKSF) and World Bank have taken the initiative and implementing the Program of Recovery and Advancement of Informal Sector Employment (RAISE) Project funded with jointly in all over the country. GUK is one of the Partner Organization (PO) in the RAISE Project and implementing 7 District, 28 Upazila with Rajshahi and Rangpur Division in the country. RAISE Project main Objective is – Informal sector of small entrepreneur can take initiative again to their entrepreneur and can start up again of their business especially those who are affected in COVID-19 epidemic and gear-up economic mobility of informal sector.

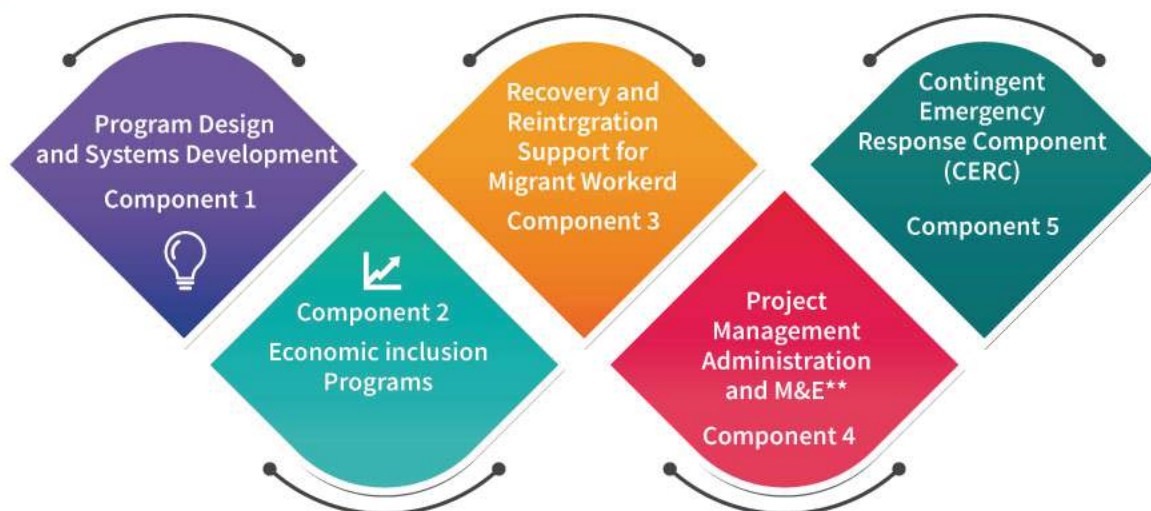

Specific Objectives:

- To restore the COVID-19 affected micro-enterprise/ business by developing capacities of micro-entrepreneurs of urban and peri-urban areas and providing inclusive finance.
- To enhance the capacities and productivity of youth and young micro-entrepreneurs in the informal sector by developing their capacities and providing inclusive finance.
- To engage youth from low-income households in sustainable employment through apprenticeship programs.

Target Participants:

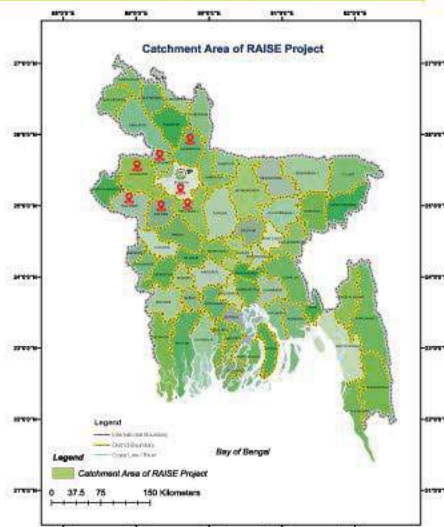

- COVID-19 affected micro-entrepreneurs receiving microfinance support of 600 participants.
- Low-income youth and micro-entrepreneurs accessing business management track of 695 participants.
- Low-income youth accessing apprenticeship track of 230 participants.

Project Components:

Working Area

07 districts
28 upazilas

Urban and peri-urban areas

Life-skills Training

To create young entrepreneurs and skilled workforce through practical training based on various trades under the supervision of Master Crafts Persons (MCP)

Organization of community outreach meetings to explore MCPs and apprentices and young entrepreneurs and subsequent training of young entrepreneurs. Images of successful ventures of young entrepreneurs receiving financial assistance under the Project

Apprenticeship Program

250 youths

250 apprentices will receive startup finance for setting up a new microenterprise

72 Master Craftsperson

All apprentices will receive employment support service

6-month-long apprenticeship

13 trades

250 apprentices will receive support for Recognition of Prior Learning (RPL)

Promoting Decent Work for MEs

Although a large part of the total employment in Bangladesh is created in the informal small enterprise sector, no significant steps have been taken so far to develop a decent work environment in the various economic activities of this sector. As a result, it is necessary to make the unskilled workers of small enterprises skilled and aware about the development of the working environment and their rights. In such a context, initiatives are taken to improve the morale, self-esteem, social welfare role of entrepreneurs and workers along with the reduction of workplace accidents, health damage and other environmental risks.

Goal of the sub-project:

Established a safely work environment for the development of a pleasant working environment in small enterprises, creating opportunities for independent work, increasing the scope of production-oriented work, introducing health protection services for workers working in financial and small enterprises.

Objectives of the sub-project

- Improving working environment in small enterprises.
- To develop professional skills of workers through technical training.
- To introduce health protection services for workers working in small enterprises.

Specific Activities:

- Professional skill development training on Workforce.
- Workshops/seminars on improvement of environmental work.
- Workshop/Seminar on Improvement of Decent work Place.
- Assistance in modernization of ventilation system for adequate light and air in factories.
- Establishment of hygienic toilet-wash blocks for the workers.
- Modernization of toilet-wash block for the workers and entrepreneurs.
- Assistance in setting up resting centers for the workers of a cluster.
- Establishment of model factory and Support in development of model factory in a cluster.
- Provision of safety equipment to the workers of the enterprise.
- Providing grants to create new entrepreneurs in the production of agricultural products
- Grants in agricultural mechanization at entrepreneurial level
- Ensure Health services for workers and entrepreneurs.

Development, branding and e-commerce-based marketing of Microenterprise product sub-project under the Promoting Agricultural Commercialization and Enterprises (PACE)

The aims and objectives of the project were to expand the market through standardization, packaging, branding and e-commerce services of small enterprises. Through the project, 500 people were given training on 'product quality improvement of small entrepreneurs' and 500 people were given training on branding and e-commerce'. In addition, 19 people will get technology support to improve product quality, 20 people for product style and design modernization, 20 people for product branding-Facebook boosting campaign, product labeling is modern

Specific Objectives:

- (a) To support in the improvement and marketing of products produced by small enterprises;
- (b) To develop skills of the entrepreneurs on branding and e-commerce through training;
- (c) To develop market system by expanding e-commerce services in small enterprises.

General Information

- Number of branches to coverage areas: 20
- Small entrepreneurs targeted under the project: 1000 Beneficiaries
- Working Area: Bogra Sadar, Sherpur, Shajahanpur, Kahalu, Gabtali, Sariakandi, Dhanut, Shibganj and Adamdighi upazilas.

Duration of the project: March 2023 to December 2023

Implemented Activities under sub-project

Sl. No	Implemented Activities	Beneficiaries-1000	
		Target	Achievement
01	Training:		
1.1	Training on product quality improvement of small entrepreneurs.	500	500
1.2	Training on skill development of small entrepreneurs' product branding and e-commerce.	500	500
02	Financial Support for Product Quality Improvement:		
2.1	Technology support to improve product quality.	19	19
2.3	Modernizing product style and design.	20	20
2.4	Product branding, Facebook boosting, campaign.	20	20
2.5	Modernizing product labeling.	17	17
2.6	Packaging of products.	17	17
2.7	Product certification.	5	5
03	Financial support to expansion of e-commerce services:		
3.1	Modernize the company's own e-commerce platform.	1	1
3.2	Product display in existing businesses.	18	18
3.3	Creating video teasers for product promotion through social media.	10	10
04	Financial Support to improve the working environment of small enterprises:		
4.1	Environmental development of the factory (waste management).	20	20
4.2	To improve healthy working conditions.	20	20

Delivery of Biofortified Zinc Rice in Bangladesh

Project Area and Targeted Households:

The project areas were Naogaon, Joypurhat, Rajshahi & Tangail district. GUK has been working for biofortified zinc rice promotion through different ways according to the targeted beneficiaries of vulnerable families, lead farmers, school teachers, orphanage, seed dealers/retailers, private company representatives, Govt. Officials and other stakeholders.

GUK started to implement the project “Delivery of Biofortified Zinc Rice in Bangladesh” with the financial and technical assistance of JICA & HarvestPlus BD from July 2021 in 4 district Naogaon, Joypurhat, Rajshahi & Tangail district.

Project Implementation Summary

GUK has accomplished the targeted project activities in due time. The targeted activities have been completed as shown in the following highlight.

- 1,000 Farmer's enrolled.
- 15 demonstration plots has established in projects areas.
- 8 Lead Farmers Meeting conducted in projects areas.
- 20 Nutrition Training conducted participation with vulnerable family
- 500 Feeding at orphanage in the projects areas.
- 20 Counseling to seed retailers meeting in projects areas.
- 1,00,000 SMS Messaging in the projects areas.

Cereal Systems Initiatives for South Asia Mechanization Extension Activity (CSISA-MEA) Project

Cereal Systems Initiatives for South Asia Mechanization Extension Activity (CSISA-MEA) is a five-year project, funded by USAID and implemented by CIMMYT and its partners: International Development Enterprises (iDE) and Georgia Institute of Technology (GT). CSISA-MEA will enhance agricultural resilience, productivity and profitability by improving the productivity, competitiveness and efficiency of domestic agricultural machinery manufacturing, assembly, use, and servicing through building local manufacturing capacity, improving quality of manufacturing practices, increasing workplace safety, and strengthening agriculture mechanization market ecosystems. Gram Unnayan Karma (GUK) as a service provider/partner with CSISA-MEA to initiate the workforce training program from December 2023 under Bogura light engineering subsector. So far, GUK Trained 900 workforces both male & female under CSISA-MEA project.

Main objectives

- Main objectives of the project is to facilitate training program to the agriculture based light engineering workforce for adopting appropriate technology in light engineering sub-sector for fostering economic growth. The following specific objectives are;
- To enhance the knowledge and skill of machining shop workers to enable them producing high quality products by using appropriate technology.
- To help the workforce improve their technical skills and fill the technological gaps in their machine operation skills.

Promoting Risk Mitigation Measures for Climate Change adaptation

SUROKKHA Project

GUK started implementing the project titled “Promoting Risk Mitigation Measures for Climate Change Adaptation-SUROKKHA in collaboration with the Syngenta Foundation for Sustainable Agriculture while Green Delta Insurance Company is the partner as Insurer from 1 May 2018 which will be continued nex couple of years. The project was located at Sherpur upazilla of Bogura district. The mission of the project was to increase income and livelihood opportunities of smallholders farmers through innovation in sustainable agriculture and activation of value chain development. The aim was to pilot AIS Weather Index Insurance (WII) products along with Climate Change adaptation and recommendations on certain crops likes Rice, Maize and Potato. During the project period under report in total 20,800 farmers purchased crop insurance policies on Potato, Boro rice and Aman rice. A total 2,951 smallholders farmers received payout against their purchased policies resulting in faith of purchasing crop insurance policies.

Dr. Shamsul Alam, State Minister, Ministry of Planning visiting activities of SURAKKAH project of GUK at Sherpur, Bogura while Dr. Khandaker Alamgir Hossain, ED, GUK was present

Highlights of the Project

- It helps smallholders farmers to cover any loss of their agricultural products due to climate change
- It helps smallholders farmers to compensate their loss of crops due to any natural disaster.
- A total 46,621 smallholders farmers purchased crop insurance policy among them 5,639 received payout against their purchased policies resulting in faith of purchasing crop insurance policies.
- The weather index insurance covers the risk of crop failure.
- Farmers are well oriented on different hazards in producing their seasonal crops round the year.
- It is becoming popular to the smallholders farmers day by day.

GUK Institute of Technology (GIT)

GUK Institute of Technology (GIT) is a sister concern of Gram Unnayan Karma (GUK). GIT has been registered by the National Skill Development Authority (NSDA), Government of the People's Republic of Bangladesh. GIT has been implementing in the following courses;

Courses offered by the institute

- * Care giving-Infant, Toddler and Children, Leve-3.
- * Care giving-Elderly Person, Leve-3.
- * Care giving- Persons with special needs, Leve-3.
- * Graphics Design for Freelancing, Level-3.
- * 2D and 3D. Auto CAD, Level-3.

The first batch started from/February 2024 on Care Giving-Infant, Toddler and Children, level-3 with 16 students and Caregiving Elderly Persons, level-3 with 20 students. The duration of course was 3 months for both the batches. After successful completion of 3 months courses the final examination was held and the students came out successful.

Training Program of GUK

For the FY 2022-2023, GUK conducted various training for staffs and beneficiaries under different projects/programs including core microfinance program. The following training courses were conducted by GUK. Some staffs of GUK received training organized by other institutions during the period under report.

Category of Training	Category of Staff	Number of Staff	
		Conducted by GUK	Conducted by other entities

GUK conducted different technical training for members and borrowers to enhance their knowledge and skill so that they can implement the respective IGAs profitably and successfully. The following training course were conducted during the reporting period for members and borrowers.

Side by side 7,320 issue based sessions at court yard level were conducted by GUK field staff. The discussion issues were dowry, divorce, polygamy, early marriage, child labor, domestic violence, acid throwing, and anti-terrorarium. The main objective of the session conduction was to make the group members aware of adverse effects of the above issue

*The numbers indicate the number of trained beneficiaries

Linkage & Collaboration with different organization/institutions

The contract signing ceremony between UNFPA and GUK for rendering adolescent reproductive health services held at Dhaka.

The contract signing ceremony between Sonali Bank PLC and GUK for providing agri-loan to the farmers under NGO linkages activities held in Sonali Bank Corporate Office, Bogura.

The contract signing ceremony between BRAC Bank PLC and GUK for implementing a project on High Value Crop Production & Market Development in Sariakandi Char Areas under Bogura district.

Delegates of United State of America (USA) visited the diversified activities of GUK and expressed their opinion for future collaboration.

DIFFERENT DAYS OBSERVED

Emergency Response Program

GUK always stands by the victims of natural disaster in its working areas throughout the country. The emergency support contains food items, cash grant and necessary materials during and after disaster.

Future Plan of GUK

- ✿ Establishment of high schools at upazilla level, colleges at district level and a private university at central level
- ✿ Establishment of Eye Hospital at division and district level step by step by maintaining the quality at affordable cost
- ✿ Up gradation of development program/project activities across the country.
- ✿ Establishment of a general hospital along with medical institutions
- ✿ Up gradation of GIT as a Multi-sectoral Engineering Institution.
- ✿ Uphold best practices of GUK in country and abroad
- ✿ Establishment of different sustainable enterprises for employment creation
- ✿ All the interventions are gender based, environment friendly, IT based and sustainable.
